

A Sanofi-sponsored symposium at EAHAD 2024

Redefining haemophilia:

The central role of thrombin generation

Wednesday, February 7

15:45–17:00 (CET)

Messe Frankfurt, Frankfurt, Germany

[Add to calendar](#)

Join our expert faculty at this Sanofi-sponsored medical symposium during which:

**Johnny Mahlangu
(South Africa)**

will explore the traditional definition of haemophilia and why shifting the focus from factor deficiency to impaired thrombin generation may be appropriate

**Carmen Escuriola-
Ettingshausen
(Germany)**

will lead a panel discussion during which the faculty will discuss their perspectives on the definition of haemophilia

**Guy Young
(US)**

will discuss the fine balance between bleeding and clotting and introduce emerging rebalancing agents for the treatment of people with haemophilia

The symposium will conclude with a Q&A session
